

8th International Symposium on
Experimental Robotics
(ISER '02)
8–11 July 2002
Sant'Angelo d'Ischia, Italy
www.iser02.unisa.it

Goal

ISER is a series of bi-annual symposia, which have been held successively in Montréal (Canada), Toulouse (France), Kyoto (Japan), Stanford (USA), Barcelona (Spain), Sydney (Australia), Honolulu (USA). The goal of these symposia is to provide a forum dedicated to Experimental Robotics Research.

The number of papers presented during the symposium is small (less than 50) and the meeting is single track in order to maximize interaction between participants. Papers should focus on theories and principles, which have been validated by experiments. Papers which discuss how theoretical conjectures were invalidated, revised, or confirmed are of great interest. Constructive reports about unsuccessful projects are also considered valuable. Video presentations of experiments are particularly encouraged.

The symposium proceedings will be published by Springer-Verlag in their newly born Advanced Robotics Series (ARS).

Venue

The Eight edition of ISER will be held in **Ischia**, the largest island of the gulf of Naples. **Sant'Angelo** is a charming little fishing village on the island. The symposium venue is the exclusive **Park Hotel Miramare** (www.hotelmiramare.it) with annexed spa center and private beach address.

Organizing Committee

Chair: Bruno Siciliano (bsiciliano@unisa.it)
Co-Chair: Paolo Dario (dario@mail-arts.sssup.it)
Scientific Secretariat: Stefano Chiaverini (chiaverini@unicas.it)
Publication: Luigi Villani (lvillani@unina.it)
Registration: Fabrizio Caccavale (caccavale@unibas.it)
Local Arrangements: Francesco Basile (fbasile@unina.it)

Sponsorship

Università degli Studi di Salerno

Schedule

Submission of Extended Abstracts	15 February 2002
Notification to Authors	29 March 2002
Submission of Final Papers	26 April 2002
Advance Registration and Hotel Reservation	10 May 2002

Prospective Contributors should contact either the **Chair** or the **Co-Chair**, or else **any Member of the Steering Committee** beforehand. Upon invitation, they should submit their extended abstracts by **email** to the **Scientific Secretariat**.

Steering Committee

Chairs:
Vincent Hayward (Canada)
Oussama Khatib (USA)

Members:
Herman Bruyninckx (Belgium)
Alicia Casals (Spain)
Raja Chatila (France)
Peter Corke (Australia)
Ève Coste-Manière (France)
John Craig (USA)
Paolo Dario (Italy)
Gerd Hirzinger (Germany)
Jean-Pierre Merlet (France)
Yoshihiko Nakamura (Japan)
Daniela Rus (USA)
Kenneth Salisbury (USA)
Bruno Siciliano (Italy)
Sanjiv Singh (USA)
James Trevelyan (Australia)
Tsuneo Yoshikawa (Japan)
Alex Zelinsky (Australia)
